Energy 4
Telecommunication 2
Photography 1

Contract Type

employee
14 **8**
freelance, consultant

Company Size

3-10   >200   >10000

Profile

I have three areas of expertise that have in common my curiosity and my passion to understand the underlying business area. My specialties are: Product Management, Data Visualisation, Frontend Engineering.

Product Owner / Business Analysis, UX Design

I act as a full Product Owner as described in the scrum guide (accountable for expressing, ordering Product Backlog Items, ...). I also gather requirements, write functional specifications and model business process as a 'Business Analyst'. I can also develop quickly UI prototypes (interactive or static) or sketches to support an iterative approach (like Design Thinking) and elaborate complex user interactions and refine my ideas based on stakeholders feedbacks.
My goal: constantly pay attention to details!

Data Visualisation

I design and create various visual representations: complex interactive visualisations (for exploratory analysis) as well as static posters, infographics and 'dashboard' views. My goal: combine both aesthetic form and functionality to communicate information clearly and efficiently to the targetted audiences.

Frontend Engineering

I design and develop Frontend Applications, either at components level (visual components integrated into an existing application) or the complete client application (JavaFX or Web applications).

Soft Skills

General

ADAPTABILITY
CREATIVITY
INTERPERSONAL SKILLS
PROBLEM SOLVING
TEAM WORK
TIME MANAGEMENT

Leadership

LEADER-COACH
Links the individual's aspirations to the company's objectives.

VISIONARY
Unites people around shared projects.

PARTNER
Creates harmony by connecting people.

(based on a test of T-Conseils SA)

Hard Skills

Non exhaustive list, sorted alphabetically (libraries, frameworks or tools commonly used in development, like git, maven, hibernate, mysql , pynum, jquery, ..., are not listed)

AGILE	ES6	PYTHON
ARCHITECTURE	HTML	REQUIREMENTS
BALSAMIQ	J2EE	SCRUM
CONFLUENCE	JAVA	UI DESIGN
CSS	JAVA FX	UX DESIGN
D3.js	JAVASCRIPT	WEB DEV
DATA ANALYSIS	JIRA	WIREFRAMES
DATA VIZ.	MACHINE LEARNING	
DATABASES	Node.js®	
DEEP LEARNING	PROTOTYPING	

Interests

Running   Photography   Readings

Work Experience

2019
Jul
(6 years, 2 months)

Sophia genetics
healthcare - data-driven medicine
EMPLOYEE

VP Functional & UX Design   May 2018 - Jul 2019
- Responsible for all functional requirements and in charge of evolving the SOPHiA Platform and ensure consistency across the business areas
- Managed Feature Requests & Product Backlog
- Approving (sign-off) or rejecting developed Features
- Implementation of prototypes (UI)

Head of Front-End Development   May 2015 - Apr 2018
- Managed & led a team (4p) in charge of development of functional features for the SOPHiA DDM Platform
- In charge of functional requirements & specifications
- Designed & Implemented a Web Application for the administration of the SOPHiA DDM platform, currently used by the Support Team
- Actively participed in 2 CTI projects (Commission for Technology and Innovation, now Innosuisse)
- Developed functional & technical features on the SOPHiA DDM platform (backend & front-end)
- Implemented several web applications and infographics for internal usage (realtime WorldMap for sophia sequencing usage, people faces, statistics, ...)
- Gene / Transcript viewer in d3.js (personal work)

Data Visualisation Engineer   May 2013 - Apr 2015
- Managed the migration of the SOPHiA DDM Platform from a web application to a Java / JavaFX application: architecture, design & implementation of the core components & screens
- Developed core JavaFX components (authentication, visual components, application components ...)
- Designed & implemented a dynamic Circular Genomic Viewer (circos plot) implemented in d3.js & HTML5.

May 2013

2013
Apr
(4 months)

International AIDS Society
healthcare - nonprofit organization
FREELANCE

Data Visualization, Web Developer
- Designed and implemented an interactive world map for the website of IAS (International AIDS Society). (javascript, D3.js, SVG, CSS)

Jan

2012
Oct
(3 years, 2 months)

Pictet Asset Management
finance - private banking
CONSULTANT

Senior Software Engineer
- Business and Technical analysis and development on a Web CRM
- Business and technical analysis of a new cash management module for a Portfolio Management System - design & implementation of both server and client side.

Aug 2009

2009

Photography
photography
OTHER

One sabbatical year stuying Photography
- Courses, self-training, travel (Canada), photoreports
- 4 months photo-reporter internship at Police Cantonale Vaudoise
- Photographer at 'La nuit des musées, Lausanne' several years (2009, 2010, 2011, 2012).

Jun 2008

Work Experience cont.

RTS - Radio Télévision Suisse

2008
Jun
(6 months)

Jan

broadcast media
FREELANCE

Senior Software Engineer

- Architecture, design and implementation of a Workflow-based collaborative application for the completely tapeless, digital production of television programs - architected around REST principles for data integration
- Wrote use-case catalog, architecture, component and framework selection, implementation planning, design and implementation.

Neo Technologies

2007
Dec
(2 years)

Jan 2006

energy - electricity
CONSULTANT

Senior Software Engineer

- Re-engineering of the in-house electricity-management logistics platform to open it to third parties and to extend the range of managed goods to gas, digital media, etc
- Reverse-engineered use-cases, sequence and class diagrams of the pre-existing system
- Wrote new use-cases and specifications by interviewing all platform stakeholders
- Architected, designed, implemented the augmented system.

Pictet Asset Management

2005
Dec
(1 year, 4 months)

Sep 2004

finance - private banking
CONSULTANT

Senior Software Engineer

- Analysis and design of an infrastructure for notification of changes between applications
- Specific implementation for cache invalidation of the pms application
- Architecture and design of a batch framework which provides an asynchronous, server-based batch processing environment that can wrap, execute and monitor business tasks.

DALIN Software SA

2004
Aug
(8 months)

Jan

finance - private banking
EMPLOYEE

Senior Software Engineer

- Developed a knowledge-based interface (API java 2d) - developed a prototype
- Analysis of a natural language query system - produced analysis and design specifications.

Odyssey Asset Management, Temenos

2004
Jan
(3 years, 7 months)

Jul 2000

finance - private banking
EMPLOYEE

Java J2EE Senior Developer

- Design and implementation of a business tag-library to communicate with EJB service layer
- Design of web components - technical person in charge of the EJB layer - responsible for the programming, packaging and deployment environments.

Work Experience cont.

2000
Jun
(2 years)

Jul 1998

Le BIPE, BDO Advisory
telecommunication - telecommunication
EMPLOYEE

Java Developer
- The principal activity was the migration and the development of an existing data warehouse under (4D) towards new technologies Java and Web within a team of 4 people

1997
Jun
(2 years, 3 months)

Apr 1995

Spie Batignolles
energy - construction
EMPLOYEE

Thermal Engineer and Data Scientist
- Head of a Computation Group working on Operational Projects
- Analysis and calculations of the air-conditioning of an enclosure of storage of nuclear waste in Novossibirsk (Siberia)
- Design and sizing of smoke-evacuation in tunnels using the SES (Subway Environmental Simulation) software
- New module implementation (FORTRAN) taking account a new physical model.

Education

1998
Aug
(1 year)

Sep 1997

Master's degree in Computer Science
computer science

DESS IAO

One year post graduate degree with honours: algorithms, programming languages (Java, C++), database systems, operating systems, language processing, software engineering, multimedia, networks.

1994
Aug
(1 year)

Sep 1993

Master's degree in Thermodynamics and Fluid Mechanics
physics, data science

IUSTI - CNRS

One year post graduate degree with honours: Thermodynamics in open systems, fluid mechanics, energy, statistical thermodynamics, mathematics, physical transfer in complex fluids, ...

1993
Aug
(3 years)

Sep 1990

Three Years Engineering School
physics, data science

IUSTI - CNRS

Bachelor + 5. Power systems, physics, heat and mass transfers, numerical modelling, advanced materials, fluid mechanics, ...

(3 months)

Sep

Infographics and Data Visualization   `data visualization`

Knight Center for Journalism in the Americas

Knight Center for Journalism in the Americas: Data Journalism and Visualization with Free Tools.

CERTIFICATE(S):   C1

Additional Activities & Interests

Running
I try to run at least 20 km per week, you can catch me on Strava and during the differents 10K courses at Lausanne.

Photography
I practice Photography as mentioned in the Experience section, this is a domain where I can express my creativity, please have a look at https://500px.com/search?q=ig2gi&type=photos

Readings
I try to read at least 2 books per month. My preferred genres: Philosophical, Informational, Sciences and Science Fiction. My last 3 books:

- 'Factfulness' by Hans Rosling (2019)
- 'Enlightenment Now: The Case for Reason, Science, Humanism, and Progress' by Steven Pinker (2018)
- 'The Art of Statistics: Learning from Data' by David Spiegelhalter (2019)
